Primary point of contact: Natasha
Nikkel, Chief Operating Officer
Executive sponsor: Natasha Nikkel,
Chief Operating Officer

01 Engagement summary

Movemental will deliver a Youthfront-tailored Sandbox Discovery engagement covering ten (10) teams across Youthfront's organization.

Sandbox Discovery is the second stage of the Movemental AI Path — a structured, four-week-equivalent exploration of AI use cases against real Youthfront workflows, designed to surface what is worth pursuing, what requires revision, and what should not be pursued under Youthfront's mission integrity and care commitments.

The engagement is module-based rather than week-based, with approximately ten (10) hours of facilitated time per team plus asynchronous individual work supported by Movemental's technological platform, recipe library, learning resources, and Learning Management System. **Facilitation is delivered in person** at Youthfront's location, with the platform and LMS providing continuous asynchronous support between sessions.

In addition to the ten team engagements, Movemental will deliver an **all-team one-time training** for Youthfront staff and a separate **leadership conversation** with Youthfront's leadership team on the deeper theological and anthropological implications of AI.

TOTAL ENGAGEMENT VALUE

\$15,000

Fifteen thousand dollars, inclusive of all facilitation, platform access, recipe configuration, deliverables, the all-team training, the leadership theological/anthropological conversation, and 30 days of post-engagement asynchronous support.

TARGET TIMELINE

Engagement begins upon contract signing and initial payment. Target completion: **December 31, 2026**. Specific scheduling for each team will be coordinated through Movemental's Calendly system based on team availability.

02 Scope of work

WHAT MOVEMENTAL DELIVERS

For each of the ten (10) Youthfront teams, Movemental will deliver:

- **Pre-engagement assessment** — delivered as a digital assessment from movemental.ai through Youthfront's organizational dashboard, completed by team members asynchronously (approximately 20–30 minutes per participant). The assessment surfaces each participant's starting point and produces a team-level synthesis.
- **Eight modules of facilitated learning** — totaling approximately ten (10) hours of synchronous facilitated time per team, delivered in person at Youthfront's location. Modules cover orientation and assessment read-back, recipes and how the Sandbox operates, first recipes in communications and content, first recipes in operations and programs, the seven-dimension discernment lens, adjudication and revision, patterns and Discernment Memo drafting, and the readiness assessment with closing leadership conversation.
- **Pre-configured recipe library** — Claude skills tuned to Youthfront's actual workflows: donor stewardship, program documentation, curriculum drafting, communications to participants and families, operational coordination, board materials, and additional categories as scoped per team.
- **Use Case Portfolio interface** — a web-based application where each team logs use cases tested, value observed, concerns surfaced, and final adjudications throughout the engagement.
- **Learning Management System access** — supporting videos, written resources, and reference materials available throughout the engagement and for 30 days post-completion. The LMS supports the in-person facilitation with asynchronous learning between sessions.
- **Three deliverables per team** — (1) Use Case Portfolio with green/yellow/red adjudication for every tested use case; (2) Discernment Memo capturing patterns of value and concern, what the team learned, and what the team now believes is true; (3) Readiness Assessment recommending Youthfront's next stage (Skills, Solutions, both, or neither) for that team.
- **Cross-team Youthfront-level synthesis** — an organizational read-back at the conclusion of all ten team engagements identifying patterns across teams, surfaced organizational-level

recommendations, and a proposed Youthfront-wide path forward. Included at no additional cost.

- **30 days of post-engagement asynchronous support** per team, accessible through email and the Use Case Portfolio interface.

Beyond the per-team work, Movemental will additionally deliver:

- **All-team one-time training** for Youthfront staff — a shared organizational baseline and common language for the Sandbox Discovery work to follow. Delivered in person at Youthfront's location and scheduled in coordination with Natasha Nikkel.
- **Leadership theological and anthropological conversation** — a dedicated session with Youthfront's leadership team exploring the deeper theological and anthropological implications of AI for Youthfront's mission, formation work, and care commitments. Delivered in person and scoped with the executive sponsor.

WHAT YOUTHFRONT PROVIDES

- A primary point of contact (Natasha Nikkel, Chief Operating Officer, or designated alternate) for engagement coordination.
- Designated point person for each of the ten teams, responsible for team coordination, scheduling, and participation.
- Team participants who complete the pre-engagement assessment and attend the eight facilitated modules.
- Suitable in-person meeting space at Youthfront's location for team modules, the all-team training, and the leadership conversation, with reliable connectivity for the platform and LMS.
- Reasonable cooperation in scheduling team sessions through Movemental's Calendly system.
- Identification of any data-sensitivity constraints — particularly regarding minor program participants, donor records, and internal personnel data — prior to the engagement beginning for any team.
- A senior leader available for the closing leadership conversation at the conclusion of each team engagement (typically the executive sponsor, COO, or designated team leader).

WHAT IS NOT INCLUDED

- **Stage 01: Safety Documentation** — separately scoped if needed. (Youthfront should confirm Safety documentation is in place or scope it as a parallel engagement.)
- **Stage 03: Skills Development** — formational deepening that follows Sandbox; separately scoped.
- **Stage 04: Solutions Deployment** — technological deployment that follows Skills; separately scoped.
- Custom application development beyond the pre-configured recipe library and Use Case Portfolio interface.

- Support beyond 30 days post-completion per team. Continued support is available under separate engagement.
-

03 Timeline and scheduling

The engagement is module-based and designed to flex around Youthfront's organizational rhythms and the variable schedules of the ten teams.

ENGAGEMENT START

Engagement begins upon: (a) signed MOU, and (b) receipt of initial payment.

TEAM SCHEDULING

Teams will be scheduled through Movemental's Calendly system based on the team point person's availability. Movemental can run multiple teams in parallel; Youthfront determines the pace at which teams are released into the engagement.

PER-TEAM DURATION

Each team's engagement spans approximately four to eight calendar weeks depending on the team's scheduling cadence, with approximately ten (10) hours of synchronous in-person facilitated time distributed across that period plus asynchronous work.

TARGET COMPLETION

All ten teams target completion by December 31, 2026. The cross-team Youthfront synthesis will be delivered within 30 days of the final team's completion, no later than January 31, 2027.

HOLIDAY AND OPERATIONAL CONSIDERATIONS

The engagement timeline accommodates standard end-of-year holiday schedules, summer programming windows, and known Youthfront operational rhythms. Movemental will coordinate with Natasha Nikkel to identify and plan around organizational rhythms (program weeks, board cycles, fundraising seasons) that affect team availability.

04 Payment terms

PAYMENT SCHEDULE

The total engagement value of \$15,000 is structured as follows:

TRANCHE	AMOUNT	DUE
Tranche 1 — Engagement initiation	\$7,500	Net 15 from MOU signing
Tranche 2 — Engagement completion	\$7,500	Net 15 from final team completion

INVOICING

Movemental will invoice Youthfront for each tranche on the dates specified above. Invoices are payable Net 15 from invoice date.

PAYMENT METHOD

Payment by check, ACH transfer, or credit card (with applicable processing fee). Payment instructions will be included on each invoice.

LATE PAYMENTS

Invoices not paid within 30 days of due date may, at Movemental's discretion, result in suspension of engagement activities until payment is received. Movemental will provide written notice prior to any suspension.

05 Deliverables and acceptance

PER-TEAM DELIVERABLES

Each team's engagement produces three deliverables:

1. Use Case Portfolio with green/yellow/red adjudication for every tested use case, accessible through the Use Case Portfolio web interface and exportable to PDF.
2. Discernment Memo (typically 4–8 pages) capturing patterns of value, patterns of concern, what the team learned about itself, what the team now believes is true, and what the team is choosing to do next.
3. Readiness Assessment recommending the team's next stage on the Movemental AI Path (Skills, Solutions, both, or neither) with reasoning and engagement options.

ORGANIZATIONAL DELIVERABLE

At the conclusion of all ten team engagements, Movemental will deliver a Youthfront-level synthesis report that identifies patterns across teams, surfaced organizational-level findings, and proposed paths forward. This report supports Youthfront's leadership planning regardless of whether further engagement with Movemental is pursued.

ACCEPTANCE

Deliverables are considered accepted upon: (a) Youthfront's designated point person for the team confirming receipt and review, or (b) 14 days following delivery if no objection has been raised. Movemental will work in good faith to address any reasonable revisions requested during the review period.

06 Confidentiality and data handling

CONFIDENTIALITY

Both parties agree to maintain confidentiality of any non-public information shared during the engagement, including but not limited to: Youthfront's internal workflows, donor information, program participant data, financial information, personnel information, and strategic plans. Movemental treats all Youthfront information as confidential by default.

DATA HANDLING

Movemental will configure all recipes and platform tools against any data-handling constraints Youthfront identifies prior to the engagement. Recipes will not process minor-related data, donor giving histories, beneficiary records, or other sensitive constituent information unless Youthfront explicitly authorizes such use under documented data-handling standards.

DATA OWNERSHIP

All Youthfront data shared during the engagement remains the property of Youthfront. Movemental will not use Youthfront data for marketing, model training, or any purpose beyond delivering the contracted engagement, without Youthfront's explicit written consent.

ENGAGEMENT ARTIFACTS

The Use Case Portfolio, Discernment Memo, Readiness Assessment, and Youthfront-level synthesis report are the property of Youthfront upon completion. Movemental retains the right to reference the engagement in aggregate (e.g., "Movemental engaged a Kansas City youth ministry organization for a Sandbox Discovery covering ten teams") but will not publish identifying details, named case studies, or specific findings without Youthfront's explicit written consent.

07 Termination

TERMINATION BY EITHER PARTY

Either party may terminate this engagement with 30 days written notice. In the event of termination:

- Movemental will deliver all completed work product for teams whose engagements are in progress.
- Youthfront will pay for all work performed through the date of termination, prorated against the engagement value.
- Any tranches due that correspond to work already performed remain payable.

TERMINATION FOR CAUSE

Either party may terminate immediately upon material breach by the other party that is not cured within 15 days of written notice. In the event of termination for cause initiated by Movemental due to Youthfront's non-payment, all outstanding invoices become immediately due.

08 Other terms

INDEPENDENT CONTRACTOR RELATIONSHIP

Movemental is engaged as an independent contractor, not as an employee, agent, or partner of Youthfront. Movemental is responsible for its own taxes, insurance, and compliance obligations.

LIMITATION OF LIABILITY

Neither party's liability under this engagement shall exceed the total engagement value of \$15,000. Neither party is liable for indirect, consequential, or incidental damages.

MODIFICATIONS

Any modifications to this MOU must be in writing and signed by authorized representatives of both parties.

GOVERNING LAW

This MOU is governed by the laws of the State of Kansas. Any disputes will be resolved through good-faith conversation between the parties before any other action is taken.

ENTIRE AGREEMENT

This MOU constitutes the entire agreement between the parties regarding the Sandbox Discovery engagement and supersedes any prior verbal or written agreements regarding the same subject matter.

09 Signatures

By signing below, the parties confirm their agreement to the terms of this Memorandum of Understanding.

NAME & TITLE

DATE

DATE

A Appendix · Module summary

The eight modules delivered per team — approximately ten hours synchronous, plus asynchronous work.

01 **Where We Are — Assessment and Orientation**

60 min

Read-back of team assessment, orientation to the Movemental AI Path, introduction to the three deliverables and traffic-light adjudication discipline.

02 **Recipes and Real Work — How the Sandbox Operates**

75 min

What a Claude skill (recipe) is, guided first run, evaluating output, the Use Case Portfolio interface.

03 **First Recipes — Communications and Content**

90 min

Each participant runs a recipe matched to their role against a real workflow; logs Use Case Portfolio entries.

04 **First Recipes — Operations and Programs**

90 min

Second recipe in a distinct domain; explicit surfacing of Care Boundary interactions.

05 **Surfacing Concerns — The Discernment Lens**

75 min

The seven-dimension lens (workflow, data, people, integrity, values, frequency, downstream effect) applied to portfolio use cases.

06 **Adjudication and Revision — Yellow to Green**

90 min

Structured adjudication producing green/yellow/red signals on every use case; revision plans for yellow-light cases.

07 **Patterns and Decisions — Discernment Memo**

60 min

Reading the portfolio as a whole; drafting patterns of value and concern; what the team learned; what the team now believes is true.

08 Readiness and Next Steps — Closing Conversation

60 min

Finalizing the Discernment Memo and Readiness Assessment; structured leadership conversation.
